

AMI Corner February 2016

Choptank Electric's AMI meter deployment is quickly making its way through the Denton District. This winter's warmer than normal temperatures and modest rain fall has helped Scope Services and Choptank Electric meter installers stay on schedule. As of early January, approximately 24,596 meters have been installed system wide, representing approximately 47% of our distribution system. Let's hope the weather continues to cooperate with our deployment schedule!

Once we complete AMI meter deployment in the Denton District, we will be moving into the Salisbury District area. As we have done in previous districts, we will be holding an AMI Open House, Thursday, March 3 from 3:00pm to 6:00pm at the Salisbury District Office, 2121 West Zion Road, Salisbury, MD. Members will have the opportunity to gather factual information from Choptank Electric staff about the technology behind advanced meters, energy information, and other Co-op topics.

Have you enrolled in SmartHub? SmartHub is our electronic payment tool that lets you manage your Choptank Electric account, pay your bill, and report your outage from your computer, smartphone or tablet. You can enroll today by downloading the app to your phone, or go to our website at www.choptankelectric.coop and click on the SmartHub button on the left of the home page. Once our AMI meter installation is completed system wide, members will also be able to view their hourly, daily and monthly energy usage using their SmartHub account. Additional services and conveniences will be offered in the near future.

Please help us keep you informed with our meter installation by updating your contact information with us. A current phone number and email address will help ensure you are receiving notifications. Please call our Member Service Center at 1.877.892.0001, Monday through Friday, 8AM – 4:30PM to update your contact information.

Information concerning our AMI meter deployment, fact sheets, videos, and opt out materials may be found on our website at www.choptankelectric.coop, by clicking on the Advanced Meter Information button. If you do not have internet access, please contact our Member Service Center and this information will be mailed to you.
