

## **AMI CORNER – May 2015**

Welcome to the newest feature of our monthly newsletter! The "AMI CORNER" is where you will find the latest updates and information regarding Choptank Electric's AMI (Advanced Metering Infrastructure) deployment throughout our service territory. Check back at this space each month to find new information concerning our progress.

As we schedule the deployment of meters throughout the Choptank Electric service territory, we will be hosting a series of AMI Open House sessions for our members. Choptank Electric wants to give our members the opportunity to learn more about the technology behind advanced meters, our deployment schedule, energy information that will be available to members using advanced meters, and other important topics.

Our first AMI Open House will be held at Choptank Electric's St. Michaels' Operations Office meeting room, located at 1118 South Talbot Street, St. Michaels, Maryland on Thursday, May 28 from 2:00PM – 6:00PM. We look forward to seeing you!

***Advanced Meter  
Information***

Don't forget to look for the Advanced Meter Information button on our website, [www.choptankelectric.coop](http://www.choptankelectric.coop), for additional information, fact sheets, and videos about our deployment.
